YOUR PASSPORT to a world of Standards
The Director of Sales and Marketing for SAI Global, being the representative in Asia Pacific for the Information Services Division, requests all those whom it may concern to allow the bearer to contact SAI Global freely without let or hindrance and to afford him or her every assistance in discussing their information needs.
By their very nature, Standards and Technical Publications are “living” documents that are constantly evolving with the needs of business and government.

Do you need to:

- be confident that you have the right publication?
- keep up-to-date with the many changes that occur in the publications you need to run your organization?
- ensure everyone in your organization is using the most recent version of a publication?
- provide access to publications across many locations?
- safeguard the integrity of your compliance management and document control systems?

If you answered yes to any of these questions, the Information Services Division of SAI Global can help.
WE HELP YOU UNDERSTAND YOUR COMPLIANCE OBLIGATIONS BY PROVIDING UP-TO-DATE ACCESS TO OVER 1,000,000 AUSTRALIAN AND INTERNATIONAL STANDARDS AND DIRECTIVES

I NEED...

- online access to a wide range of Australian Standards* and a selection of key international Standards 6

- to ensure that our products fulfil the specified requirements of a nominated product Standard 28
- to understand my Governance, Risk Management and Compliance obligations 29
- to maintain and improve the performance of my personnel 30
I need online access to a wide range of Australian Standards® and a selection of key international Standards.

Welcome to our Standards On-Line Premium Service

Standards On-Line Premium is our flagship digital service. It has been specifically designed for organizations with heavy and wide-ranging Standards usage needs. It is updated daily, so every time you look at a document it’s the very latest version. It caters to the varied needs of organizations with large numbers of Standards users, or whose business regularly touches a broad range of subject areas. It is ideal for those organizations where the sheer size and cost of purchasing and maintaining individual Standards is difficult to manage.

I need online access to a customised selection of Australian Standards® and a selection of key international Standards.

Welcome to our Standards On-Line Select Service

Standards On-Line Select is our bespoke digital service. It has been specifically designed to provide cost-effective access to small or medium sized collections. It is updated daily, so every time you look at a document it’s the very latest version. It caters to the varied needs of organizations with a moderate number of Standards users, or whose business regularly touches a small range of subject areas. It is ideal for those organizations that do not have the internal resources to source and manage an up-to-date collection of relevant Standards.
I need online access to the Building Code of Australia and all the Standards referenced within it.

Welcome to our BCA + Standards Service

The BCA provides a nationally accepted and uniform set of technical requirements for all areas of building, from design to construction. Developed by the Australian Building Codes Board (ABCB) on behalf of the Commonwealth, State and Territory Governments, the BCA is referred to as the building regulation in all States and Territories.

The BCA is a performance-based publication that covers such topics as structure, fire resistance, health and amenity, building access and egress, and building services and equipment. Importantly, Housing Provisions are written in plain English and follow the typical staged flow of residential construction, from site preparation to completion. It also includes diagrams and commentary explaining the various clauses.

I need online access to the Energy Networks Association Guidelines and Publications.

Welcome to our ENA Service

The Energy Networks Association (ENA) is the peak national body representing gas and electricity distribution businesses throughout Australia. Electricity transmission networks are associate members and are active participants in the ENA asset management policy agenda, which includes the development of ENA Industry Guidelines. ENA is one of the industry sector bodies that emerged from changes to the Australian Gas Association and the former Electricity Supply Association of Australia in late 2003. All former ESAA Guidelines relating to the electricity supply industry are now owned by ENA.
I need online access to the Austroads guides, commentaries and reports.

Welcome to our Austroads Service
Austroads is the association of Australian and NZ road transport and traffic authorities. The Austroads Online Subscription Service contains over 400 publications and is a great way for organizations to keep up-to-date on a wide range of issues, including:

- Asset Management
- Bridge Technology
- Pavement Technology
- Project Delivery
- Project Evaluation
- Road Design
- Road Safety
- Traffic Management
- Transport Planning

I need to stay informed about the multitude of changes that occur in the world of international Standards and engineering specifications.

Welcome to our Standards Infobase Service
Standards Infobase is the world’s leading bibliographic database covering over 1,000,000 national, international and military Standards, and with a scale that extends across the entire industrialised world.

Standards Infobase is a detailed reference resource giving you in-depth information and a powerful search tool on world Standards. It provides you with a complete management and acquisition tool for all your Standards and technical document needs.
I need to stay informed about the vast number of materials, test Standards and suppliers around the world.

Welcome to our Materials Infobase Service
Materials Infobase includes detailed information on over 115,000 different materials, including covers, polymers, plastics, rubbers, resins, additives, adhesives, fibres, ceramics, composites, pre-pregs, semi-finished products and more. All information is compiled directly from manufacturer data sheets, ensuring accuracy in the creation of this unique material selection database.
Alongside the large number of critical materials properties, Materials Infobase uniquely integrates bibliographic information for over 38,000 worldwide test Standards.
It also includes a full directory of leading suppliers.

I need to stay informed about parts and suppliers for US Government procurement and commercial enterprise.

Welcome to our LOGICOM Service
The LOGICOM solution can identify the military parts you need in many different ways using whatever information you have; even without a part number. With over 150 million items at your fingertips, LOGICOM provides quick and easy access to multiple streams of logistics data such as:
> NSN (National Stock Number) & NIIN (National Item Identification Number)
> AEL (Allowance Equipage List) & APL (Allowance Parts List)
> CCR (Central Contractor Registration) data
> Procurement history
> RFQ monitor and bid Searching
> Mil Specs
> Military & commercial part drawings
> CAD Drawings
> Vendor Catalogues and more.
I need to stay informed about the vast number of metal grades, referring Standards and suppliers around the world.

Welcome to our Metals Infobase Service

Metals Infobase is the leading database on over 75,000 metal grades and properties, suppliers and metallurgical Standards. It includes chemical composition, mechanical and physical properties, form and heat treatment details.

Combined with the vast number of essential facts on metal grades, Metals Infobase also uniquely provides detailed bibliographic information on over 50,000 worldwide metals-related Standards and a full directory of leading suppliers.

WHEREVER YOUR ORGANIZATION OPERATES IN THE WORLD…
WHERE IN THE WORLD IS SAI GLOBAL?
I need up-to-date access to a multitude of European regulatory developments that can impact my organization and affect the day-to-day decisions I have to make.

Welcome to our Eurolaw Service
Eurolaw is the definitive full-text legal database of the European Union. It comprises the official Celex (Communitatis Europeae Lex) database plus much more vital information added by SAI Global’s experts. Our Eurolaw service is the benchmark for legal and research professionals working with European law. If you need failsafe access to European legislation, Eurolaw will answer your questions and save you both money and time.
I need occasional access to Hardcopy and PDF formats of Standards and Business Publications from around the world.

Welcome to our InfoStore
Through our InfoStore, you can search and purchase Standards, Handbooks and Business Publications from hundreds of publishers from around the globe. In addition, you can search for Amendments, Drafts, What’s New and International Equivalents. You can even search by Subject Area. Information on your global compliance obligations delivered to your desktop.

I need reusable contracts or to incorporate information from Standards into my company’s documentation.

Welcome to our Licencing Service
Australian and International Standards are developed by teams of experts. We offer practical, flexible options so that you can realize the value of Standards for your own purposes:

> Reproduction requests of Standards content e.g. for training manuals, brochures
> Editable Contract Standards for contractual arrangements that you can edit to suit your needs
> Licensing solutions to help you manage third party requests for access to your copyrighted material.
I need to be proactively informed of changes to Standards.

Welcome to our StandardsWatch Service

StandardsWatch is an email-based notification service that provides you with a customized news service. You can nominate to be informed of changes:

- To almost any Standard available
- By Subject areas

When any changes occur to your nominated documents, we send you an email detailing the change. Where you have nominated a topic, we will also let you know about any new product we have added to our catalog that affects your area of interest.

I need to be proactively informed of changes to Standards related services.

Welcome to our Buyer Advantage Program

The BAP includes a monthly email newsletter updating you on all of the new, revised and withdrawn Australian Standards®, Draft Standards and amendments, information about other publications from SAIGlobal, plus Member exclusive special offers.

The BAP also allows you to buy on account, and confers discounts of up to 15% on many publications.
I need to be able to view and print a wide range of Standards.

Welcome to our Click2View Service

Click2View is our subscription service to view and print a collection of full text Standards defined by you. Just Click2View the full text of any Standard in your collection as often as you want - wherever you want. Everyone in your organization can have unlimited access to the Standards on their PCs. The Standards are also automatically updated so you can always be sure that you are using the most current version - essential for ISO 9000 quality audits.

I need to stay up-to-date on Australian Legislation, Commentary and Codes.

Welcome to Anstat Legislation

Anstat Legislation is a wholly owned subsidiary of SAI Global and is one of Australia’s largest publishers providing:

> Value-added regulatory information
> Complete access to Australian legislation
> Food Standards ANZ Publications
> Safe Seafood Australia
> OHS in Practice
I need a deep understanding of property planning information, conveyancing and business searches.

Welcome to Anstat Property Information

Anstat Property Information is a wholly owned subsidiary of SAI Global and provides a range of services to law firms, conveyancers, real estate agents, valuers and other property and finance related professional firms. Services and products include:

- Title Search
- Planning & Roads Certificates
- Planning Schemes & Extracts
- Authority Certificates
- ASIC, Bankruptcy and Business Names
- Iceridge Conveyancing System
- Settlement Services

I need to have my system audited, certified and registered.

Welcome to Assurance Services

Driving improvement is a constant challenge for organizations. SAI Global can supply you with the technical and business expertise to simplify that challenge, whatever business you are in. Providing independent, second and third party certified assessment services, we offer you one of the most widely recognizable symbols of excellence and assurance, the StandardsMark™.
WE HELP YOU UNDERSTAND YOUR COMPLIANCE OBLIGATIONS BY PROVIDING UP-TO-DATE ACCESS TO OVER 1,000,000 AUSTRALIAN AND INTERNATIONAL STANDARDS AND DIRECTIVES

I need to ensure that our products fulfil the specified requirements of a nominated product Standard.

Welcome to Product Certification Services

SAI Global provides third party assurance that a particular product fulfils the specified requirements of a nominated product Standard. For the end users it provides a high degree of confidence that the product will perform according to the specified Standard. The SAI Global StandardsMark™ on the product represents reliability, quality assurance and safety.

I need to understand my Governance, Risk Management and Compliance obligations.

Welcome to Governance, Risk and Compliance Services

Increasingly complex business environments, dynamic regulatory landscapes, the increasing expectations of stakeholders and the public’s awareness of ethical breaches are driving a convergence in ethics, governance, risk and compliance initiatives at organizations worldwide. Critical to this convergence is the need to improve performance and build and maintain a workplace where an ethical culture permeates all aspects of the workplace.

At SAI Global we break down this complexity and help you manage risk, achieve compliance and promote an ethical culture.
I need to maintain and improve the performance of my personnel.

Welcome to Training Services
Your organization’s continued success depends on building the capability of your people to achieve your business goals.
SAI Global provides a wide variety of training, awareness and improvement solutions that help build knowledge and skill at an individual level or across the entire organization. Our innovative solutions, used by thousands of companies and millions of individuals worldwide, are focused on workplace integrity, building a culture of compliance, enhancing effectiveness and returns from management systems and processes, and improving and sustaining long-term business performance.
The Customer Service, Major Accounts and Direct Marketing Groups of the Information Services Division of SAI Global Limited are ISO 9001 certified.
