

# New Wiring Rules Coming in 2018

## New Wiring Rules

### AS/NZS 3000, Electrical Installations

The Wiring Rules is Australia's most widely used standard and part of every electrical licence and training.

With over 200 proposed changes, the new edition is being updated in line with new technology, equipment and improved installation practices.

It will remain in two major sections:

Part One provides uniform essential elements and minimum regulatory requirements for safe electrical design and installation.

Part Two provides updated work methods and installation practices that are 'deemed to comply' with performance outcomes and safety conditions.

## Release Date

The new edition is expected to be published by SAI Global in 2018. Register your interest today and we'll keep you up to date with the latest Standards developments in the electrical industry.

## Major Changes

With over 600 pages, we are expecting:

- 194 explicit changes
- 6 new appendices
- 54 complete new clauses
- Section 7 to be completely re-written

Visit the website for a full summary.

Compliance with the new Wiring Rules will be applied on a mandatory basis in accordance with relevant State legislation.
