

## *EHS Manager 360*

---

*Environment, health and  
safety (EHS) made easy*

---

## INTELLIGENT RISK

*At SAI Global, we believe that proactively managing risk is a strategic imperative that creates opportunities and a competitive advantage. We call this Intelligent Risk.*

SAI Global can help you to create a pro-active Intelligent Risk culture that reduces operational risk, ensures compliance with all relevant regulations, increases competitive advantage, and above all, is safe for workers, suppliers and customers.

Within our rapidly evolving workplaces, one key risk area that all companies have to manage is environment, health and safety (EHS).

---

## SAI GLOBAL - YOUR EHS PARTNER

### THINK GLOBAL, ACT LOCAL

SAI Global has more than 25 years experience with EHS. Our team has deep domain experience and can help organisations, large and small, on their ongoing journey to improve their EHS practices. With representation in 28 countries and 51 locations across Europe, the Middle East, Africa, the Americas and Asia Pacific, SAI Global can help you build a global presence, with the expertise and knowledge to service local markets.

### FUTURE PROOF YOUR EHS JOURNEY

Verdantix's 2017 Green Quadrant results saw SAI Global move from an 'Innovator' to a 'Leader'. You can find out more about these results [here](#). SAI Global's broad risk management strengths, were identified by Verdantix as enabling organisations to track risks holistically across the high impact areas of health and safety, environment,

business operation performance, profit and loss, and stakeholders.

SAI Global offers highly scalable, interoperable and configurable EHS solutions that grow with your business. With a long-term product roadmap, integration into existing systems and extra modules that can be added as your business grows, you can rest assured that your investments are protected and you have a trusted partner and advisor in SAI Global every step of the way.

### SAI GLOBAL SERVICES

SAI Global have a team of expert consultants across a multitude of industries, specialised in delivering global best practice services and integration options to ensure your solution is tailored to your organisation's needs.

---

## INTRODUCING EHS MANAGER 360

Introducing EHS Manager 360 (formerly Cintellate), SAI Global's class leading EHS software solution that allows businesses to identify, manage, monitor and report on real-time EHS and risk management obligations.

The modern user interface, native mobile app, advanced designer toolkit and powerful reporting capabilities will ensure that the benefits of EHS Manager 360 are recognised across all levels of an organisation.

---

### FOSTER HIGH PERFORMANCE THROUGH ENHANCED ACCOUNTABILITY

EHS Manager 360 has 'action management' at the heart of every module to enhance employee accountability for EHS within your business. Email notifications, reminders and escalations can be used throughout the system to help identify and encourage individual accountabilities in all aspects of daily operational activities.

### SIMPLE AND INTUITIVE USER INTERFACE

EHS Manager 360 is intuitive and simple to use, designed from the ground up with the user in mind, minimising end user training and driving faster user adoption. EHS Manager 360 can be translated into multiple languages to support data capture irrespective of the countries your organisation operates in.

### EMPOWER YOUR MOBILE WORKFORCE

EHS Manager 360 Roam moves beyond the confines of cellular or WiFi network access providing 'anywhere, anytime' access with data capture available on mobile devices both on-and-offline, eliminating the need for paper forms and driving greater employee productivity.

### INSIGHTFUL REPORTING AND POWERFUL DATA ANALYTICS

EHS Manager 360 provides insightful reporting and powerful analytical capabilities for all users. It includes interactive dashboards that are integrated across modules, tracking leading and lagging indicators and providing an aggregated view of EHS performance and risks. Users can also use data analytics and reporting tools to create custom reports and analyse data as needed.

### CONFIGURABLE AND SCALABLE

EHS Manager 360 offers you a modular solution that is highly configurable and easily integrates into existing infrastructure. Pick and choose modules to support business processes as required, or add extra modules to expand the system in line with your changing organisation.

### WORLD CLASS DATA SECURITY

EHS Manager 360's security module is highly granular, making it easy to protect information down to the field level, protecting privacy and keeping sensitive information secure.

### FAST TIME TO VALUE

EHS Manager 360's web based software minimises deployment and IT overheads. The low capex outlay and scalable modular approach helps reduce costs and maximise return on investment. It can be deployed quickly helping to build a risk-savvy culture from the outset.
