# LOGICOM

Your complete database of US military parts and logistics

YOUR COMPLETE
DATABASE
OF U.S.
GOVERNMENT
AND MILITARY
PARTS & LOGISTICS

Manufacturers, suppliers and contractors working in government and military markets face unprecedented challenges. Keeping core infrastructure functioning. Fulfilling the requirements of existing supply and maintenance contracts. Meeting mission critical deadlines. Adapting to technological and regulatory changes. Controlling production costs.

And all the while seeking out new business opportunities and competitively positioning your business. All of these and many more present government and commercial contractors with operational issues on a daily basis.

When mere minutes can be the difference between winning or losing a contract, accuracy is crucial and supply chain excellence is demanded, what's needed is a productivity tool that will help you:

> Instantly identify the part numbers you need, and effortlessly retrieve existing part information.

> Determine if you have selected the right part for your needs.

> Identify the suppliers and various sources for parts.

> Find information on Government Bids and RFQ's to help you win business.

> Search for old parts or obsolete parts, and find appropriate replacements.

> Verify that the parts meet Military Specifications or Standards Specifications.

> Identify and locate NSN (National Stock Numbers) information.

> Expand your government business and generate sales in new government markets.

THE ANSWER IS
LOGICOM

Choose LOGICOM for your businesses mission-critical US Government and military logistics and parts data.

LOGICOM

LOGICOM is an online annual subscription service that provides a comprehensive database of parts and suppliers for US Government procurement and commercial enterprise.

The LOGICOM solution is an unbeatable package. LOGICOM has powerful features and functionality for parts identification using whatever information you have, how ever incomplete. Even if you don't have a part number you can identify the parts you need quickly and conveniently.

YOUR COMPLETE FLIS DATABASE

LOGICOM contains information from the Federal Logistics Information System (FLIS) for all active parts and suppliers. Regular updates help make sure that your business is able to compete with the most up-to-date data available.

In addition to technical characteristics for parts, the LOGICOM database contains:

> Master Cross Reference Data (MCRL).

> Management List Consolidated (MLC).

> Commercial purchase history.

> US Government management information including Interchangeability and Substitutability data (I&S).

> Federal Item Identification Guides (FIIGs).

In LOGICOM there are over 1,000,000 parts for which the government specifies a military standard or federal specification.

These are provided FREE to subscribers!

INFORMATION COVERED

With over 150 million items at the your fingertips, LOGICOM provides quick and easy access to multiple streams of logistics data such as:

> NSN (National Stock Number) & NIIN (National Item Identification Number).

> AEL (Allowance Equipage List) & APL (Allowance Parts List).

> CCR (Central Contractor Registration) data.

> Procurement history.

> RFQ monitor and bid searching.

> Mil Specs.

> Military & commercial part drawings.

> CAD drawings.

> Vendor catalogues and more.

LOGICOM provides comprehensive information on all active Commercial Entities (CAGEs) including:

> Company addresses.

> Contacts.

> Web addresses.

> Parts supplied.

> Purchase history.

POWERFUL SEARCH CAPABILITY

LOGICOM provides subscribers with an easy-to-use, powerful search engine for finding parts identified by the US Government as National Item Identification Numbers (NIINs).

Use our Basic Search using item descriptions, National Item Identification Numbers or Commercial Part Numbers. The Advance Search mode allows added flexibility by using any known technical characteristics of the item you are looking for.

You can also search for, and research, all active commercial enterprises doing business with the US Government. Search commercial entities by Name, CAGE code, City, State or Zip code.

FLEXIBLE MANAGEMENT TOOLS

> Create your own reports by using LOGICOM'S Report Generator for parts and suppliers.

> Export to MS Excel, MS Word and manipulate data for technical characteristics, purchasing history, supplier details and much more

> LOGICOM's RFQ function lets you quickly mark parts for an automatic search of Government RFQs. Once a part is marked, LOGICOM will do the rest. You'll receive an email notification for any RFQ matching your request. You can even add selected web addresses for RFQ searches.

BUSINESS BENEFITS

> Expand your business by researching the specifics of DoD bid opportunities and other RFQs, monitoring competitor activities, and tracking pricing trends. You can view your competitors' capabilities and awarded contract histories.

> Uncover new business prospects by accessing information on more than 135,000 companies currently selling to the U.S. Government.

> Maximize your negotiating power by viewing the actual price paid for government purchases and locate alternate sources when primary suppliers can't deliver.

> Use LOGICOM to increase the efficiency of your design, testing, and quality assurance processes. Subscribers can improve product development cycle times and avoid parts duplication by determining if parts already exist.

> Search by the technical characteristics of parts to help meet engineering design requirements and identify new parts sources.

> Download part attributes to ensure your internal parts and legacy data remains clean and standardised.

> Enhance DMSMS (Diminishing Manufacturing Sources and Material Shortages) capabilities by quickly locating past vendors to manage the risk of part and material obsolescence for mission-critical systems.

> Quickly identify sources for the parts you need, even with incomplete information at hand.
